Beautiful, sophisticated apartment in a building designed by architect Jānis Fridrihs Baumanis, in a prime location in the centre of Riga. The house was built in 1874, but the facade has been renovated and the staircases have been restored.

The apartment has a 20m² terrace with the most wonderful view in Riga to the adjacent park. The terrace is finished with sustainable thermo wood, heated drains and ladders, high quality waterproofing material.

Every detail, every object has been thought out in the designer's penthouse to make life su...
